

This stackable modular ice maker is part of a unique range of cubers; designed with hygiene as a priority. Each ice cycle is made with fresh water, ensuring only the highest quality of ice. The cubes are easily recognized by its precise shape, clarity and slow dilution. This is particularly important for ice that is used in premium beverages like cocktails, as it protects the integrity and flavour of the drink. This model is configured with our storage bins, and can be stacked to multiply the ice production.

SPECIFICATIONS

Product title	Cuber, Modular & Stackable
Production capacity (kg/24h) approx.	240
Electric connection	1/220 - 240V/50Hz
Electric connection Load (kW)	1.33
Outside Dimensions W x D x H (mm)	1084 x 700 x 500
Ice type	L Cube - standard
Refrigerant	R404A

CO2 equivalent (kg)	1882
Cooling system	Remote Condenser
Product configuration	Stackable
Net weight (kg)	85
Gross Weight Packed (kg)	97
Corresponding bin(s)	B801SA, F_1025_52S, F_650_42S, F_650_44S, F_950_48S
