

DISPENSER, ICE ONLY DIM-40DE-HC-SN

Serie prodotto: DCM - DIM

Codice prodotto: L024-D200

This Hoshizaki DIM-40DE-HC-SN is a cube ice dispenser producing up to 43 kg high-quality servings of cube ice per 24 hours. Most commonly, Hoshizaki dispensers are used, where a quick, efficient, and food-safe serving of ice-water combinations is needed.

DIM DISPENSERS produce and provide the famous Hoshizaki cubes for handy self-service. What makes this dispenser so popular is its convenient portion control, which can be set easily. This allows you to precisely regulate the serving sizes. This range of self-serve dispensers is often placed in hotels, positioned on each floor, to provide guests with quality ice all around the clock. With an elegant and lean look, they almost disappear within modern interior designs. Focusing on user-friendliness and maximum food safety, air or light never hits the freshly produced ice, while stored, providing maximum contamination protection for operators and consumers.

Sustainable

The DIM-40DE-HC-SN uses refrigerant R290. This natural refrigerant is not only climate-friendly, but it also boosts the dispenser when it comes to performance and production capacity.

Waste Control

Waste control for more sustainability; these dispensers allow intuitive portion control. This helps to regulate the consumption of ice among end-users, reducing overall energy consumption and waste.

Food Safety

As with all Hoshizaki machines, hygiene, food safety, and contamination protection play a major role. Dispensers are operated by consumers directly. In order to eliminate health risks, the machines are designed to never let air or water hit the freshly produced ice, while stored.

Perfect Fit

With outside dimensions W x D x H of 350 x 526 x 1590 mm, the DIM-40DE-HC-SN is compact and makes a perfect fit for small spaces. Our dispenser portfolio accommodates suitable appliances for different requirements regarding serving amounts, storage capacity, and space limitations.

Plug&Play

The smart plug-and-play design guarantees an easy and quick set-up.

SPECIFICATIONS
