

CUBER, MODULAR & STACKABLE IM-240XNE-HC-32-SN

Serie prodotto: IM

Codice prodotto: M071-D205

This Hoshizaki IM-240XNE-HC-32-SN is a stackable cube ice maker producing up to 190 kg of high-quality cube ice per 24 hours. Meeting even the strictest hygiene requirements, this true allrounder offers many application possibilities in segments including the foodservice and medical sector. All Cubers are equipped with an electronic control system. This ensures an optimized ice-making process, even under varying circumstances. Without additional manual assistance or adjustments required, our Cubers produce generous amounts of ice cubes, at a consistently high quality.

Sustainable

The IM-240XNE-HC-32-SN uses refrigerant R290.

This natural refrigerant is not only climate-friendly, but also boosts the machine, when it comes to performance and production capacity.

Material

The exterior is made of stainless steel. The closed water circuit provides maximum protection against any type of contamination during the entire cubing process. All Hoshizaki machines are easy to use, clean, and maintain.

Unique Technology

A dedicated jet of fresh water is injected into each of the closed cells. Excess water leaves the closed cell through a set of outlets. The cell walls block the freezing water's expansion from all sides while reaching down to -30°C during the cubing process. Thanks to the automatic rinse cycles, impurities such as minerals, are eliminated from the water resulting in the purest ice possible while your machine is protected from calcification and mineral build-up.

Smart Design

Like all Hoshizaki Ice makers, the IM-240XNE-HC-32-SN is designed to last and comes with smart design extras such as a magnetic water pump without direct coupling. This element prevents leakage from the water circuit and improves the life expectancy of the machine.

Perfect Fit

Need to amp up your production capacity? These ice makers can be stacked and combined with modular bins and bases. This allows the user to mix and match depending on individual requirements, ice consumption, and space conditions. The dimensions of the IM-240XNE-HC-32-SN are 1082 x 697 x 485 mm.

Plug&Play

The smart plug-and-play design guarantees an easy and quick set-up.

SPECIFICATIONS

Nome del prodotto	Cuber, Modular & Stackable
Capacità produttiva (kg/24h) circa	190
Collegamento elettrico	1/220 - 240V/50Hz
Consumo Elettrico (kW)	0.93
Dimensioni L x P x A (mm)	1082 x 697 x 485
Tipo di ghiaccio	Cubetto XL - 32
Refrigerante	R290

CO2 Equivalente (kg)	0,420
Sistema di raffreddamento	Air Cooled
Configurazione del prodotto	Stackable
Peso netto (kg)	78
Peso lordo imballato (kg)	93
Corrispondente contenitore/i	B340SA, F_1025_52S, F_600_42S, F_650_44S, F_950_48S
